ABOUT ME

Passionate web developer and tech enthusiast. Love to implement creative ideas and professional websites. Always love to take new challenges in tech and coding. Implemented few ideas and eager to implement more. Currently 2nd year Btech CSE student. Seeking opportunities to further develop skills in fields of data analysis, web and mobile development. Adaptive to new environments, fast learner and love to network.

EDUCATION

2023- present
Cochin University of Science and Technology

Bachelor of Technology | Computer Science and Engineering
Currently pursuing Btech in Computer Science and Engineering (CSE).

EXPERIENCE

April 2024
Dockode Solutions Pvt Ltd

Intern
Completed first internship at Dockode Solutions Pvt Ltd, Calicut. The domain was web development in **Python Django**. Build a few web apps in Django as assignments and assisted the backend engineer with bug fixing and testing.

October 2024
Make-A-Ton 7.0

Organizer
Organized Make-A-Ton , which is one of the largest hackathons in South India, which is exclusively powered by Major League Hacking (**MLH**) and secured sponsorship from global tech companies like **GitHub**, **Logitech**, **Orkes**, and **GeeksforGeeks**.

April 2024 - Present
Talrop

Squad Member
Base level squad member at **Talrop**, building diverse hybrid ecosystems for different industries through Infrastructure, Innovation and Talent.
